1. I met with [REDACTED] Chairman, Information Handling Committee from 9 to 1015 hours 29 August 1980.

2. He is trying to create an SI/TK (APEX) level computerized listing of intelligence publications for Community analysts use.

3. He seeks assistance in the establishment of an interpretation of DCID 1/7 that will permit listing of titles of ORCON reports. DDO says they do not want their TS and S level ORCON publication on such a listing and are using DCID 1/7 as authority for their position.

4. It was pointed out that SECOM had just completed revision of DCID 1/7 and that it was at the NFIB level for consideration. It was suggested that RMS representative to NFIB [REDACTED] might take the opportunity at the NFIB discussion of DCID 1/7 to raise [REDACTED] issue. Depending on the outcome of the NFIB discussion SECOM would be pleased to support as feasible.
